## Acorn Weevils Gear List

### GEAR

- Backpack– sturdy straps and roomy enough for snack/lunch and other gear  
Kids should be able to carry their own backpack. Front chest buckles can be helpful for this.
- 1-2 Water Bottles, 32oz total
- Lunch & healthy snacks (extras on colder days keep us warm!)
- Notebook and pencil
- A complete change of clothes, including socks, packed in a ziploc bag in case of accidents or more wet/muddy adventures

**CLOTHING** Names written on clothing labels is SUPER helpful. **ALL GEAR should be wool or synthetic rather than cotton (cotton will not keep you warm when wet)**

### Autumn & Spring:

- Late Oct-Dec only** Hunter orange item (hat, bandana or vest)
- Wool socks (Darn Tough, Wigwam, SmartWool, etc)
- Sturdy sneakers or hiking-type boots
- Long underwear top & bottom (no cotton)
- Sweater, fleece or 'lofty' hoodie
- Rain gear: hooded waterproof jacket & rain pants OR one-piece rainsuit\*
- Rain boots for wet days
- Sun hat or baseball hat for rain/sun/bug protection

### Winter:

- Wool socks
- Thick Soled Boots (mid-calf or higher w/ removable liners preferred)
- Base Layer: Long underwear top and bottom (no cotton)
- Mid Layer: Warm sweater or fleece zip up/pullover (non-cotton)
- Outer Layer: Winter coat and snow pants OR one-piece snow suit\*
- Hat, mittens & face covering/neckwarmer
- Extra mittens and extra socks in ziplock bag

\*Snow/rain suit or separate pieces? Suits tend to be more effective for long periods of activity and are more comfortable, but can be more of a hassle with toileting and layer changes. Whatever your child is most comfortable in!

**If you have trouble finding gear or need support to get gear, don't hesitate to reach out. We want your child to be safe and comfortable! We have a supply of gear to lend and are also happy to advise workarounds for gear based on articles you already have.**
